ROČNÍK 13 · 1969

ACADEMIA

STUDIA GEOPHYSICA ET GEODAETICA

1969

TOM 13 VOLUME

Журнал по геофизике, метеорологии и климатологии, геодезии

A journal of geophysics, meteorology and climatology, geodesy

*

Главный редактор — Chief Editor

STANISLAV BRANDEJS

*

Зам. редактора — Executive Editor

JAN PÍCHA

*

Редакционная коллегия — Editorial Board

EMIL BUCHAR, MILAN BURŠA, JOSEF JÍLEK, JAN KAŠPAR, TIBOR KOLBENHEYER, MIKULÁŠ KONČEK, KAREL KUČERA, VÁCLAV PETR, ŠTEFAN PETROVIČ, KAREL PĚČ, JOSEF PODZIMEK, OLDŘICH PRAUS, JIŘÍ VANĚK, ALOIS ZÁTOPEK

*

Адрес редакции — Editorial Office

Geofysikální ústav ČSAV, Boční II, Praha 4 - Spořilov

*

Администрация — Administration and Circulation

ARTIA, 30, Ve Smečkách, Praha 1 - Nové Město, Czechoslovakia

*

СОДЕРЖАНИЕ – CONTENTS

1

Burša M.: On the Figure of the Earth's Equipotential Surface from Satellite Orbit Dynamics 1

Man O.: Optimum Linear Operatore and Their Application in Interpolating and Computing Derived Fields in Magnetometry and Gravimetry 13

Šimon Z.: Die Thermohysterese und der Einfluss des Aussentemperatur bei dem Gravimeter Gs 12 Nr. 129 25

Siráň G.: Ponderomotoric Forces and Sudden Irregularities in the Earth's Rotation, I 35

Střeštík J.: Properties of Spectra of Geomagnetic *pi2* Pulsations Recorded at the Budkov Observatory 42

Bochníček J.: Effect of the Lower Ionosphere on Electromagnetic Disturbances with Periods Corresponding to Micropulsations 60

Lakomá D.: Model of Elementary Step on the Basal Face of an Ice Crystal 76

КРАТКИЕ СООБЩЕНИЯ – SHORTER CONTRIBUTIONS

Delong B.: Zur Berechnung der Genauigkeitscharakteristiken einer harmonischen Analyse 88

Link F.: Auroral and Archaeomagnetic Variations in the Past 90

Čechová E., Gottwald A.: Anwendung der autokorrelativen und harmonischen Analyse beim Studium der Wellen im Druckfelde 93

ХРОНИКА – NEWS

Zátopek A.: European Seismological Commission, Sub-Commission for the Carpathian and Balkan Regions (Progress Report 1966–1968) 100

Editorial Board: Prof. Dr. Stanislav Brandejs – Quinquagenerian 104

2

Procházka E.: Die Ausgleichung und Genauigkeit eines Polygonzuges mit lagengemäss ungenauen Anschlusspunkten 105

Radouch V.: Die Anwendung von Orthogonalpolynomen für die parabolische Approximation 125

Skalský L., Pícha J.: On Some Problems of Tidal Observations with Tiltmeters and Their Accuracy 138

Vaněk J.: Revised Amplitude Curves of Seismic Body Waves for the Region of South-eastern Europe 173

Siráň G.: Ponderomotoric Forces and Sudden Irregularities in the Earth's Rotation, II 180

Zapletal K.: Connection of Some Magnetic Properties with the Phase Composition of Natural Pyrrhotites 191

Podzimek J.: Contribution to the Explanation of the Motion of a Falling Column-Like Ice Crystal 199

Věková N.: An Attempt at Analyzing the Errors of the Equivalent Barotropic Model 207
Erratum 223

3

Vaníček P.: New Analysis of the Earth-pole Wobble 225
Vondrák J.: The Trajectory of a Light Ray through the Atmosphere as a Solution of a System of Differential Equations 231
Bozzi Zadro M.: An Ideal Isotropic Bidimensional Filter and Its Application in the Interpretation of Gravity Anomalies 239
Vyskočil V.: Statistical Characteristics of Linear Transformations of Gravity Anomalies .. 252
Velkoborský P.: On the Solution of the Molodenskii Boundary Value Problem Using Succesive Approximations 259
Klíma K., Vaněk J.: Fitting the Amplitude Curves of Seismic Waves by Numerical Methods 267
Prikner K.: Rapid Changes in the Fourier Spectra of *Pil* Pulsations during Magnetically Disturbed Periods. Part I-Frequency Analysis 276
Střeštík J.: Comparison of Data on Geomagnetic Pulsations Recorded by Various Instruments 293
Hesek F.: Statistical Model of a Smoke Plume 308

КРАТКИЕ СООБЩЕНИЯ — SHORTER CONTRIBUTIONS

Maršík Z.: A Theoretical Contribution to Block Analytical Aerotriangulation 321
Kočí A.: Inversion of the Geomagnetic Field Determined by Palaeomagnetic Investigations of Quaternary Sediments 326

ХРОНИКА — NEWS

Pícha J.: Report on the Symposium "Exchange of Experience with Tiltmeter Observations and a Critical Analysis of Their Physical Significance" 332
Buchar E.: Colonel Ladislav Beneš, D. Sc. (Tech.), Obituary 334
Organizing Committee: Symposium on Physical Geodesy 335

4

Burša M.: Potential of the Geoidal Surface, the Scale Factor for Lengths and Earth's Figure Parameters from Satellite Observations 337
Burša M.: On the Determination of the Geopotential from Perturbations in Satellite Orbits Using the Orthogonality of Harmonics 359
Bhattacharji J. C.: Modified Earth Model Free-Air Gravity Anomaly for Use in Vening Meinesz's Formula 373
Šütti J.: Accuracy of a Free Polygonal Traverse Oriented by Gyrotheodolite 390

Skalský L.: Determination of Azimuths of Simple Horizontal Pendula 400
Kolbenheyer T., Sitárová A.: Die Schwereanomalien einer parabolischen Antiklinale .. 417
Janský J.: Refracted Wave in a Horizontally Stratified Medium with Constant Velocity Gradients 423
Prikner K.: Rapid Changes in the Fourier Spectra of *Pi1* Pulsations During Magnetically Disturbed Periods. Part II-Amplitude Analysis 444
Kropáček V.: Changes of Magnetic Properties of Titanomagnetites in the Course of Disintegration of Solid Solutions 457
Hlachová P.: A Simple Model of Spiral Cloud Bands in Large-Scale Atmospheric Vortices 468

КРАТКИЕ СООБЩЕНИЯ — SHORTER CONTRIBUTIONS

Siebenhüner H.: A New Determination of the European Datum 478
Lambeck K.: New Estimates for the Relation of the North American Datum to a Geocentric Satellite Reference System 482

КРИТИКА — REVIEWS

Pícha J.: Geofysikální sborník — Геофизический сборник — Travaux Géophysiques 1967 486
Editorial Board: V. Karník: Seismicity of the European Area, Part I 487
